

Whale Tank Venture Studio

YOUNG FOUNDERS PROGRAMME

What Kind of World Awaits?

PREPARING FOR TOMORROW

In today's rapidly evolving landscape, we must equip our children with the skills they need to thrive. Emphasis on **communication**, **creativity**, and **adaptability** is crucial, as these competencies will empower them to navigate unforeseen challenges and opportunities ahead.

A decorative orange abstract shape, resembling a stylized flower or a series of overlapping petals, is located in the bottom right corner of the slide.

Why Whale Tank Exists: Nurturing Confidence Through Practice

BUILDING SKILLS THROUGH REAL EXPERIENCES

At Whale Tank, we believe that **confidence is cultivated** through hands-on experiences, fostering creativity and resilience in each young founder.

Our Learning Philosophy: Growth Through Experience

EXPLORE AND DISCOVER

We encourage children to **explore their ideas**, fostering curiosity, and promoting independent thinking through hands-on activities and immersive experiences.

BUILD AND CREATE

Participants engage in **building tangible projects**, allowing them to apply learned concepts and transform their ideas into reality via collaborative efforts.

REFLECT AND IMPROVE

Reflection is key; children assess their experiences, learning valuable lessons that contribute to their personal growth and future endeavors.

The Six Month Journey

LAUNCH

Students kick off their entrepreneurial adventure together.

EXPLORE

Learners investigate market needs and potential ideas.

CREATE

Teams design and craft original products, shaped by creativity as much as problem-solving

A Typical Saturday

STRUCTURED LEARNING THROUGH ENGAGING ACTIVITIES

Each Saturday is designed to foster **creativity and confidence**, featuring activities like icebreakers, challenges, and reflections that empower children in a supportive environment.

The Skills That Quietly Grow

CULTIVATING ESSENTIAL LIFE CAPABILITIES

- Communication skills for effective expression
- Leadership abilities foster collaboration and teamwork
- Confidence to face challenges and thrive
- Problem-solving strategies for real-world scenarios
- Resilience to adapt and overcome obstacles

From Ideas to Products

IDEATION

Generating ideas through brainstorming sessions drives creativity.

PROTOTYPING

Crafting tangible representations of concepts for testing.

FEEDBACK

Gathering insights through testing enhances product development.

Pop Up Market: Empowering Young Entrepreneurs

CELEBRATION

A joyful gathering showcasing confidence and creativity.

Meet Our Inspiring Mentors

NURTURING YOUNG INNOVATORS

KALYANI

**THE PERSON WHO MAKES THE ROOM
FEEL SAFE ENOUGH TO TRY.**

NOOPURA

**THE PERSON WHO KNOWS WHAT YOUR
HANDS ARE CAPABLE OF BEFORE YOU DO.**

Parent Concern	Our Response
Is this an entrepreneurship programme?	Entrepreneurship is the medium. Life skills are the outcome.
My child is shy and doesn't speak up.	Confidence grows through experience, not pressure. We create small, safe opportunities to share ideas, collaborate and present.
Will this distract my child from academics?	Research consistently shows that skills like communication, problem-solving and self-management support academic success. Whale Tank complements school by developing abilities that textbooks alone cannot teach.
My child has never done anything like this before.	That's exactly who this programme is designed for. Children don't need prior business, art or public speaking experience—only curiosity and a willingness to learn.
Will my child actually gain something beyond making products?	Products are simply the learning tool. What children take home is stronger communication, teamwork, creativity, decision-making, responsibility and the confidence to turn ideas into action.

WHALE TANK VENTURE STUDIO

Program Details

A STUDIO PROGRAMME THAT GROWS WITH YOUR CHILD
